THREE MER KILLED ON A SOUTHERN RAILnon.—A few evenings since, the express train from New Orleans, on the New Orleans and Jackson Railroad, came in collision with a freight train bound down, two miles from Haslehurst. Several cars were demolished, two brakesmen killed and an engineer so badly hurt that he can not recover.

THE DANCING ISPECTION IN GREWANY.—A few months after the dancing malady of 1374 had made its appearance at Aix-la-Chapelle, it broke out at Cologne, where the number of those possessed amounted to more than five hundred, and about the same time at Mets, the streets of which place are said to have been filled with eleven hundred dancers. Peasants left their plows, mechanics their workshops, housewives their domestic duties, to join the wild revels, and this rich commercial city became the scene of the most ruinous disorder. Secret desiras were excited, and but too often found opportunities for wild enjoyment; and numerous beggars, stimiluted by vice and misery, availed themselves of this new complaint to gain a temporary livelihood. Girfs and boys quitted their parents, and servants their masters, to amuse themselves at the dances of those possessed, and greedily im-THE DANCING INPROTION IN GERMANY .-- A dances of those possessed, and greedily im-bibed the poison of mental infection. Gangs of idle vagabonds, who understood how to imitate to the life the gentures and convulsions of those really affected, roved from place to place seeking maintenance and adventures, and thus, wherever they went, spreading this disgusting spasmodic disease like a plague, for in maladies of this kind the susceptible are infected as easily by the appearance as by the reality. At last it was found necessary to drive away these mischievous gueste, who were equally inaccessible to the exorcisms of the priests and the remedies of the physicians. It was not, however, until of the physicians. It was not, however, until after four months that the Rhenish cities were after four mounts that the khenish cities were able to suppress these impostures, which had so alarmingly increased the original evil. In the meantime, when once called into exist-ence, the plague crept on, and found abund-ant food in the tone of thought which pre-vailed in the fourteenth and fifteenth conturies, and even though in a minor degree, throughout the sixteenth and seventeenth causing a permanent disorder of the mind, and exhibiting, in those to whose inhabitants it was a novelty, scenes as strange as they

CARROY THE FEET.—Hall's Journal of Health says that the tendency of India-rubber shoes is to make the feat cold, thus endangering the health; hence they are useful only in walking when the ground is muddy or closhy with melting snow. In these cases they are invaluable. When rubbers are on the feet persons should keep moving, and remove them on entering the house. If the rubbers have been on the feet several hours, both shees and slockings are necessarily damp by the condensation and confinement of the perspiration; therefore, all should be removed and the naked foot held to the fire till warm and dry in every part. The same rule holds good in relation to leather boots and shoes made water proof. For common purposes leather boots and shoes are the best, if kept well blacked, with several renewals of dry well blacked, with several renewals of dry socks during the day, if the feet perspire pro-

A TUBOAN THEONE TO BE PURCHASED .- The Florence correspondent of the Providence Journal says that the story is still current in Florence, and is more and more credited, that riorenee, and is more and more credited, that the Grand Ducal family is going to attempt to buy its way back to the Tuscan throne with gold. They are coining at Paris a million of dellars in gold, with the head of the young Ferdinand IV as Duke. After the Congress, which is to decide in his favor, this money is to be scattered among the Tuscans, and with it oblivion of all past sins is to be purchased.

The family of Lorraine is rich enough to sprend such a sum for the coveted power, but it is quite toe late to think to buy the loyalty of a people which has been thrice deceived.

INPLUENCE OF CHLOROFORM ON BREE.-Mr. honey taken from a hive, without killing the bees, and having before heard of chloroform being used, felt anxious to try the experiment. He first closed the doorway, then covered the hive with a cloth to shut out the light as much as possible, after which he commenced to blow chloroform into the hive. When it was dis-covered that the bees had fallen asleep, they were easily removed to another hive withou harm to any one, and the next morning were all awake and in a lively state, humming around their hive.

GENERAL LAND OFFICE .- The General Land Office presents this general synopeis of its business: During the five quarters ending September 30, 1859, 18,518,183 acres of the public lands were disposed of; 4,970,500 acres were sold for cash, yielding \$2,107,476; 3,617,440 acres were located with bounty land warrants; 1,712,040 were approved to the several States entitled to them; and 6,318,208 acres certified to States, as falling to them under the grants for railroad purposes.

A CALCULATING FARMER.—A lady passing through the country, observed the following notice on a board: "Horses taken in to grass. Long tails, three shillings and sixpence; short tails, two shillings." The lady asked the owner of the land the reason for the difference owner of the and the reason for the difference of the price. He answered, "You see, ma'am, the long talls can brush away the files; but the short tails are so tormented by them that they can hardly eat at all."

SENATOR DOUGLAS'S RECOVERY DOUBTFUL. Senator Douglas, it is said, is far from being a well man, and his permanent recovery is very remote, if not doubtful. His disease is said to be gout in the stomach. His purpose of going to Florida is prevented by his inability to travel at present, though it is his purpose to go South as soon as he is strong enough to travel. — Washington States, Dec. 29.

PROULTAR INCIDENT .- It is stated that after the burisl of John Brown, when the children of the man just buried were sitting round the warm, one of the visitors noticed the seats on which they were seated, as something out of the way. On examining them, it was found they were boxes which had once contained Sharpe's rifles.

Cause or Americas.—Ambition is frequently the only refuge which life has left to the denied or mortified affections. We chide at the grasping eye, the daring wing, the soul that seems to thirst for sovereignty only and know not that the flight of this ambitious bird has been from a bosom or a home that is filled with ashes.

BOURGICAULT PLAGIARISING AGAIN .- Dion Bourcicault's Octoreom, according to the New York News, was borrowed almost bodily from Captain Mayne Beid's work called The Quadroon, published by De Witt in 1856. Bourcicault is the most unblushing plagfarist of the time, and may well be called the Colley Cibber of his age.

Exvenerve Pocker-Picking.—Mr. T. Kohn a merchant of Hartford, had his pocket-picked of \$1,100 in this city on the 19th inst., while going from the New Haven Railroad Depo to the Astor House. By stopping the pay ment of drafts, he reduced his loss to \$800 and now offers \$200 reward for the detection of the pickpockets.

A WITTI WOMAN.—"You forget yourself," said a lady of our acquaintance to a rather impertinent gentleman. "Ah, well," added she, after a pause of a few moments, "I suppose you are excusable for forgetting what is not worth remembering."

A RELITABLE KIND OF FORTUNE TELLING.—
Despicable as the practice which goes by the name of fortune telling is, we believe there is a kind of fortune telling which is not only possible, but easily practised upon correct principles. Taus, to begin with the young, when we see a child obedient to his or her parents or teachers, or any one else toward whom the subordinate relation has become necessary, we have no hesitation in predicting that good fortune will accompany such a child into early manhood or womanhood, and insure a fair startfin adult life. If the case be that of an honest, energetic young man, who has successfully advanced from the position of apprentice and journeyman into that of a master mechanic or boss, we can tell his fortune without much difficulty. So with regard to those who have chosen a profession as the means of livelihood. Let us see how they conduct their business. If they do this intelligently, industriously and honestly at the start, they will be very apt to continue to de so, and success will be sure in the long run. Unprincipled men in the same line may get ahead of them at the beginning, but they will fare best in the end, and so illustrate the truth of the maxim that honesty is the best policy. We will confess that we are no fortune-teller if it does not so turn out.

Goine Sleighting Liverally.—Two Man A RELIABLE KIND OF FORTUNE TELLING.

Goine Sleighting Literally—Two Man Brutally Murdered.—On Saturday night, the 24th, a fight occurred at the tavern of Mass & Martin, Triadelphia, Vs., in which Frederick Martin was so badly injured that he died soon after. Several large parties of young men from Wheeling were out sleigh riding, and many of them were intoxicated. One man asked Mass for a drink, and was refused. Immediately tumblers and pitchers commenced flying—Mass and Martin were knocked down and stabbed and beaten with chairs, and the women of the house, rushing into the midst of the fraces, were beaten back with considerable injury. The bruisers then left the house, jumped into their sleighs and drove away. Upon picking Mr. Mass up, two long knife wounds were discovered, either of which would have proved fatal. POSTAL APPAIRS OF THE GOVERNMENT .- The report of Postmaster General Holt dwells largely upon the financial embarrassments of largely upon the financial embarrassments of the year, attributable to the failure of the usual appropriations. The amount of ascer-tained liabilities not met by the Department, but due to this neglect, is declared to be \$4,295,000, while liabilities to the amount of \$11,458,000 have been liquidated. The gross revenue of the year were \$7,308,464. These, added to a balance on the books of the Audi-tor, and to unemployed appropriations, con-stitute a total of \$12,168,390 available re-sources, against expenditures amounting to sources, against expenditures amounting to \$11,558,139 for the fiscal year ending June 30, 1859. For the fiscal year terminating on the same day, 1860, the Postmaster General estimates the sum required to be \$14,871,548.

ILL EFFECTS OF OVER STUDY .- The pressure upon young men to complete their educational course at the carliest possible date is constantly on the increase, and enough, undoubtedly, may be seen on all sides of the injurious results of this premature high pressure. The healthy action of the understanding is being constantly impeded by a crowd of unconnected and unprolific recollections which are forced in upon the unformed memory, and forced in upon the unformed memory, can neither be digested nor retained. I indeed, a most injurious practice, which can not fail to make its results falt at a future day.—Lancet.

OUR WAR DEPARTMENT .- The Secretary of Our WAR DEPARTMENT.—The Secretary of War reports that while the authorized strength of the Army is 18,105, the number in July last was only 17,498; and 11,000 of that number were alone available for service in the field. Small as it is, the force has been required. red to man about 130 permanent garrisons, posts and camps scattered over an area of three millions of square miles, and consequently it has been impossible to give ample ocurity to citizens on our frontier.

FIRST AND SECOND CHILDROOD .- An English writer says: "I have known youths of the most honorable families bring home wives without shoes and stockings, or a second shift; or write to their mammas to say that they have married Molly Mogg, the alchousekeeper's daughter. The boys do this at seventeen, and old men do it at seventy-two; and there is about as much real love at the one HORRIBLE DESTITUTION .- The Coroner was

day or two since, on the body of a young woman, Susannah Miller, who had dropped dead the previous day, just as her mother had returned home from the funeral of another daughter. The mother had exhausted her means in the burial of her other child, and was found in her hovel watching the corpse of her daughter to keep the rate from devouring it.

COWARDLY OUTRAGE.-A young man named Leiby was the victim of a dastardly outrage in Harrisburg, Penn., on Saturday night last. He was assaulted by several masked ruffians, who knocked him senseless with a club, stripped him of every article of clothing, and then pitched him down the river bank, where he lay insensibe for some time.

FRAUD AGAIST GOVERNMENT .- Certain parties in Taunten and Berkley, (Mass.,) have, it is said; lately been summoned before the United States Grand Jury in Boston to give evidence touching frauds alleged to have been perpetrated upon the General Government in the procuring of land warrants.

WM. TELL SHOOTING AN ACTOR.-Mr. Watson, as actor, was recently wounded at Hali-fax, Eng., during the performance of William Tell. In the second act, where Tell instructs his sen in the art of shooting, an arrowstrayed from its aim, and deprived Mr. Watson of A BOSOM THAT FOUND PRACE.—Sweet pear

taken from the bosom of an Egyptian mummy, three thousand years old, were presented to a society in New York the other day by Professor Morse, with a statement that several of them had been planted last summer, and had vegetated. A FAMOUR COMMUTAN DANGEROUSLY ILL.

A VULGAR VIXER.—Mrs. Forester, of Spring-field, Mass., was arraigned for disturbing one of the Charles-street schools, in that city, by the use of indecent language to the teacher in he presence of the scholars. She was send to pay a fine for her misconduct
